# From medical notes to medical codes in seconds

A revolutionary healthcare product with **Complex EHR Integration** & **Advanced AI Capabilities.**

> We were impressed with how prepared and knowledgeable TFA was for our Athena EHR Integration. **Truly world-class professionals.**

Enterprise Grade-Security with **HIPAA-Compliant EHR** & **Cloud Integration**

- ✓ EHR Integration
- ✓ Common Language CPT Code search
- ✓ HIPAA Compliant
- ✓ Physician and procedure specific CPT code recognition
- ✓ Adheres to SOC-2 principles
- ✓ AI code library support

Core Features

A professional engineering team that **physicians & large hospitals can trust**

Individual Users
- ✓ Easy to use
- ✓ Codes any operative notes within seconds
- ✓ No CPT books required

Group Practices
- ✓ Use anywhere, with any device
- ✓ Customizes itself to doctor and coder habits
- ✓ Submit notes for charge capture using a mobile camera

Hospitals
- ✓ Custom API integration
- ✓ Bulk Discounts
- ✓ EHR integration

Case Study

AI with medical coding **makes a massive difference**

A 1 month retrospective audit comparing GaleAI to 3rd party coders found the human coders missed **7.9% of codes identified by GaleAI.**

7.9% undercoding rate of **existing human-driven service** identified by GaleAI

$1.14M LOST CODING IDENTIFIED

GaleAI identified an estimated **$1.14M in yearly lost revenue due to undercoding with human coders** at a cost of less than 1% of gained revenue.

> We needed a partner that could understands AI, complex EHR Integration & product development for large medical institutions, TFA delivered + more.

Grant Muller, M.D. Co-founder & CTO of GaleAI
